Energy Performance Certificate

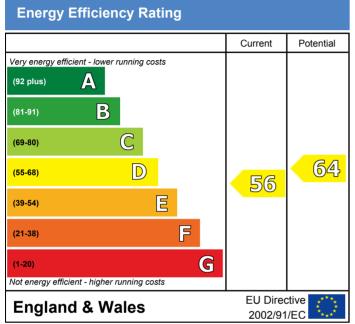

Flat 5. Dwelling type: Top-floor flat

107 Queen's Gate, Date of assessment: 15 September 2009 LONDON, Date of certificate: 15 September 2009

SW7 5AG Reference number: 9558-3069-6221-6771-3014

Total floor area: 36 m²

This home's performance is rated in terms of the energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO₂) emissions.

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills are likely to be.

| Environmental Impact (CO ₂) Rating | | |
|--|-------------------------|-----------|
| | Current | Potential |
| Very environmentally friendly - lower CO2 emissions (92 plus) | | |
| (81-91) | | |
| (69-80) | | |
| (55-68) | | 57 |
| (39-54) | 50 | |
| (21-38) F | | |
| (1-20) G | | |
| Not environmentally friendly - higher CO2 emissions England & Wales | EU Directive 2002/91/EC | |

The environmental impact rating is a measure of this home's impact on the environment in terms of Carbon dioxide (CO₂) emissions. The higher the rating the less impact it has on the environment.

Estimated energy use, carbon dioxide (CO₂) emissions and fuel costs of this home

| | Current | Potential | |
|--------------------------|---------------------|---------------------|--|
| Energy use | 508 kWh/m² per year | 431 kWh/m² per year | |
| Carbon dioxide emissions | 3.1 tonnes per year | 2.6 tonnes per year | |
| Lighting | £36 per year | £18 per year | |
| Heating | £363 per year | £330 per year | |
| Hot water | £209 per year | £181 per year | |

Based on standardised assumptions about occupancy, heating patterns and geographical location, the above table provides an indication of how much it will cost to provide lighting, heating and hot water to this home. The fuel costs only take into account the cost of fuel and not any associated service, maintenance or safety inspection. This certificate has been provided for comparative purposes only and enables one home to be compared with another. Always check the date the certificate was issued, because fuel prices can increase over time and energy saving recommendations will evolve.

To see how this home can achieve its potential rating please see the recommended measures.

This EPC and recommendations report may be given to the Energy Saving Trust to provide you with information on improving your dwellings's energy performance.
